

At Learn2Communicate we offer a variety of different services delivered across a school Term to meet your child's needs

Consultative Service

- This service involves providing speech pathology services indirectly for your child e.g. home/school programmes and periodic appointments with your child, family, teachers or other health professionals.
 - A Term of consultative services may be recommended for your child following a Term of individual intervention with a Speech Pathologist or for when your child needs a 'break' from regular appointments in order to consolidate gains.
- Your child's schedule of services will be mapped out for you at the beginning of the Term and regular communication will be maintained throughout the term to ensure that your child continues to make progress.
